Objective

Detail-oriented cybersecurity professional with comprehensive training in Cisco networking, CEH, wireless hacking, penetration testing, and bug hunting, seeking an internship to apply advanced knowledge of cybersecurity protocols and hacking techniques. Skilled in Python, Bash scripting, and deep web security insights, I aim to contribute to proactive security measures and enhance organizational defenses through hands-on experience and a solutions-driven approach."

EDUCATION

Cybersecurity Course
National Institute of Technical & Security Education Pakistan (NITSEP)
Completed: 2024
Coursework: CCNA, CEH, Wireless Hacking, Penetration Testing, Bug Hunting

Python and Artificial Intelligence Training
National Vocational & Technical Training Commission (NAVTTC)

Intermediate
Government College Lahore Township

PROJECTS

DVWA (Damn Vulnerable Web Application)
Practiced exploiting common web vulnerabilities to strengthen skills in identifying and mitigating security weaknesses.

OWASP Top 10
Gained hands-on experience addressing the OWASP Top 10 vulnerabilities, focusing on application security fundamentals.

Metasploit Framework
Exploited popular ports and tested network security to understand penetration testing methodologies and exploit development.

Wireless Hacking with Aircrack-ng
Conducted wireless network security assessments using Aircrack-ng, practicing techniques for identifying and exploiting network vulnerabilities.

SKILLS

Penetration Testing & Vulnerability Assessment

- Nmap, Shodan, Burp Suite, Metasploit, Nessus, OpenVAS

Network Analysis & Security

- Wireshark, Hydra, Aircrack-ng

Web Application Security

- SQL Injection, Cross-Site Scripting (XSS), XSS Hunter

Password Cracking & Exploitation

- John the Ripper, Hydra

AWARDS

Certified Ethical Hacker (CEH)

Python & AI Training Certification

Cybersecurity Training Certification

Language

English – Proficient

Urdu – Native / Fluent
